Suggestion to Rename the Electorate of Casey to Barak

I fully support the suggestion to rename the federal electorate of Casey to Barak.

It would be much more meaningful to the constituents of this electorate to have it named after a noteworthy individual who actually lived and contributed to the area.

Barak (named after William Barak) is a good choice as it reflects the Indigenous history of the region, particularly Coranderrk and recognises a significant elder and statesman of the area.

Barak would also alleviate any confusion with the City of Casey and give the electorate its own identity.
