Dear NSW augmented Electoral Commission,

I write to you as a resident and voter in the Federal seat of North Sydney to object to the proposal of the Redistribution Committee for New South Wales (Committee) to abolish the Division of North Sydney. I would like to raise the following points:-

1. Other better options to the redistribution have not been fully explored
2. There are significant numbers of communities of interest in North Sydney unique to this area with a strong local identity that is not shared with the proposed new division, such as sporting, social and support groups
3. As a long term resident of North Sydney of more than 30 years I feel a strong affinity with my local community on the lower North Shore and would like to be represented in Federal Parliament by a member that is strong committed the unique characteristics of this area and to its unique population.

Thank you for your consideration in this matter.

Lesley Sharon Youde
