## AEC - Redistribution

I would like to provide some feedback to the suggestions that have been provided to the AEC. I think it makes sense that one or two electorates be abolished. If two electorates are to be abolished then a new seat around the city of Blacktown should be created. I like the idea of 'Druitt' as a name, as one of the suggestions that were made in submission (s 40). If a new electorate isn't created, and only one seat needs to go, then it is best that Berowra is abolished. It is too large of an area and too small of a population, making it ideal.
