Australian Electoral Commission

My name is Wally Jones and I am writing to the AEC regarding distributions. I think it is a great idea to abolish Berowra as many of the proposals suggest. The area is below quota and the seat can easily be split between the other neighbouring seats. The proposals that suggest abolishing this seat all outline good reasons that should be considered. The size of the land contrary to the size of the population, the name being rather insignificant as a geographical feature, something that the AEC says should be avoided, and the demographics being very vast depending where abouts in the electorate you live.

Thank you

Wally
