

Objection 259

Wayne & Andrea
Simmons

1 page

Our objection to the abolition of Higgins electorate is for the following,

There is a proliferation of medium density housing happening, especially along the High Street corridor, which obviously leads to population growth in the electorate.

There is also major hospitals and numerous schools that require unique considerations

We chose to be in the Higgins electorate for the values and the community beliefs that brings with being with like minded people.

To abolish the Higgins electorate would be hugely disappointing for us and a big mistake by the Australian Electoral Commission

Yours Sincerely

Wayne & Andrea Simmons
