# DIVISION OF FORREST

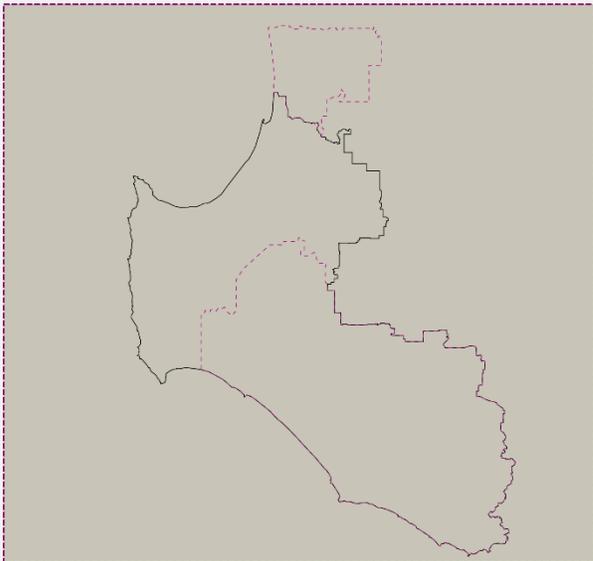

---

## BOUNDARY SUGGESTION

---

### MAP OF PROPOSED CHANGES

---

Hello AEC,

I, a resident of the South West Region am submitting a suggestion regarding the boundaries of the Division of Forrest. I believe the division should lose the Harvey SA2 and gain the Pemberton SA2 and Manjimup SA2. Firstly this would unite the forestry and coastal communities of the current seat with the closely aligned communities currently in O'Conner. These areas share much more in common with each other than they do with the rest of O'Conner which is projected to be over quota and needs to lose voters. Secondly the loss of the Harvey SA2 allows for further maneuverability of the Canning boundary and its interaction with the purely metropolitan seats along with the new 16<sup>th</sup> seat.

Sincerely,

Anonymous
