I suggest that the SA2 area of Collie must be included in the reconfigured electorate of Forrest. Industries based in Collie such as Alumina are large employers in the Forrest area. Many Forrest electors make the daily commute to nearby Collie which is for some reason not part of their electorate. Collie is incongruent with most of the O'Connor electorate with only similarities to Kalgoorlie. It is much more industry focused than most of the O'Connor Electorate and is a clear part of the states South West. In light of the significance of Collie industries to the Greater Bunbury Area, I suggest that at the expense of Donnybrook - Balingup and parts of the Harvey SA2, which are much more farm focused, Collie should be incorporated in the electorate of Forrest as reconfigured.
