WA FEDERAL ELECTORATE REDISTRIBUTION

BY LUKE DIXON

RATIONALE

The following proposal aims to create as even as possible a distribution of voters among the 16 electorates at the 2028 designated timeline. This has been attempted while utilising natural, suburban and road landmarks as definable boundaries, whilst maintaining electorates within common characteristics and LGA's.

Using the predicted quota of voters per electorate, a number was allocated to the nearest thousand indicating how many voters were to be redistributed to or from each electorate. For example, +2 would indicate that the electorate was around 2000 voters over allotted, while -2 would indicate an electorate that was around 2000 voters under allotted. This was used as a basis for my calculations.

This proposal suggests the creation of a new electorate spanning the outer eastern suburbs and inner regional areas around Perth. Characteristics of this new electorate include;

- The electorate name of **Court**. The electorate name is named after previous WA premiers Sir Charles Court and Richard Court.
- The new electorate will take in portions of the Hasluck, Canning, Swan, Durack and Burt electorates.
- The new electorate will allow for the entirety of the Kalamunda and Mandaring LGA's to be in the one electorate, while also incorporating major outer suburban/inner regional localities such as Bullsbrook, Byford, Northam and Toodyay.

OVERVIEW OF ELECTORATE CHANGES: ALPHABETICAL ORDER

BRAND (+9)
